# Shoes

All the Shoes use the same sole, which is cut a little larger than the actual shoe size, but it makes it easier to sew.

Fold the Sole in half and find the center front and back.

\*\* Lace Up Shoes\*\* fold both pieces in half as well and line up with sole. Pin the larger wrap around piece first and then overlap the toe and tung piece over each side.

Stitch around each shoe sole about  $\frac{1}{4}$ " from the edge. Trim the edge and turn right side out.

Thread a long piece of embroidery floss and sew in the lace.

For the Mary Janes and Ballerina shoes sew the side seam first and then line up the front and back as in the previous directions. Don't forget to make both a left and right. For the Ballerina I sew on ribbons on each side so that they wrap around each leg twice about 14" on each side.

For the Mary Janes sew a snap on to the strap and where the strap meets the shoe.

Sew a pretty button on the front or a little ribbon rose.
